LISTING OF DRMS RECURRING INFORMATION REQUIREMENTS

A. REFERENCES.

1. DLAR 7750.1, Management and Control of DLA Information Requirements.

2. DRMS Instruction 5000.5, Listing of DRMS Recurring Reporting Requirements, August 16, 2001, (hereby superseded).

B. PURPOSE. To provide a listing of all recurring information requirements for which DRMS has responsibility.

C. APPLICABILITY AND SCOPE. This instruction is applicable to HQ Defense Reutilization and Marketing Service (HQ DRMS), Defense Logistics Information Service (DLIS) and DRMS field activities.

D. DEFINITIONS. Specific terms/acronyms applicable to the recurring information requirements are at enclosures 1-4.

E. PROCEDURES. Regular due dates, methods of submission and other report specific requirements are defined under each RCS number. When the normal due date of a report falls on a Saturday, Sunday or Federal holiday, the report will be due on the first succeeding workday. Emergency Status Precedence Codes (ESPC) included herein provide a guide for the submission of reports during emergency situations.

F. RESPONSIBILITIES. The offices having primary responsibility for recurring report requirements are listed at enclosure 5.

G. EFFECTIVE DATE AND IMPLEMENTATION. This instruction is effective and shall be implemented upon signature by the DRMS Executive Assistant.

H. INFORMATION REQUIREMENTS. The "Data Reported" section of each RCS number outlines the requirements for that report.

EMERGENCY STATUS PRECEDENCE CODES

I. GENERAL. An Emergency Status Precedence Code (ESPC) is a coded designator assigned to recurring HQ DLA and HQ DRMS approved reports to provide instructions for the submission of reports during emergency or special situation, including:

- A. Emergency conditions defined in the DLA BEP.
- B. Disruption of normal postal service.
- C. As otherwise directed by competent authority.

The code relates only to the requirement for report submission and in no way modifies the responsibility for accumulating required data at the reporting level during the period of emergency.

II. APPLICATION. An appropriate ESPC is assigned for each imposed recurring reporting requirement listed herein. The assigned codes provide HQ DRMS and DRMS field activities with readily available instructions for reporting under specified emergency conditions. Whenever a disruption of postal services continues for a period longer than specified for delay of mail submissions, the requiring activity will provide specific instruction for extending the delay period or forwarding required information by alternative means.

III. CODING DESIGNATORS:

A. ACTION CODES

- C - Continue reporting.
- N - Initiate reporting.
- R - Revise in accordance with reporting directive.
- S - Suspend reporting.

B. OCCURRENCE CODES

- 1 - Upon notification of DEFCON 1
- 2 - Upon notification of DEFCON 2 or as otherwise directed
- 3 - Upon notification of DEFCON 3 by competent authority
- 4 - Upon notification of DEFCON 4
- 5 - Domestic emergency
- 6 - General war
- 7 - Until notified (used with action code C only)
